## Infinity For Reddit With Serial Key Free

A client that focuses on browsing posts and comments The app comes with a black theme interface that is neatly structured so that you can easily access your favorite subreddits, saved content, the latest posts as well as the main page. As you would expect, the app comes with a search function where you can easily find the topic or subreddit of interest. Moreover, the app comes with handy features to go to the comments sections or subreddit directly. It is worth mentioning that the tool comes with a Lazy Mode that has the role of handling scrolling automatically. As the name suggests, the tool takes care of the scrolling so that you can just relax and read posts as they go by. Supports multiple accounts and direct saving on the device If you used the official Reddit app before, then you know that in order to save a video, you need to access another page and add the source link of the video there before downloading. While the tool allows you to directly download images to your device, it still does not provide the video download function which frankly most users would appreciate. Lastly, it is worth mentioning that Infinity for reddit Crack supports multiple accounts that you can toggle between seamlessly. This can be particularly useful for anyone who wants to create a throwaway account to share a story on a more sensitive topic without divulging their identity.
