Absolute HTML Compressor - a software application for compressing HTML documents without any loss of quality. It's a quick and easy-to-use solution for making your web pages smaller, and it helps you to make your website more interactive for your visitors, saving their bandwidth and making it load faster. It also compresses HTML so that your pages look better in search engines. Absolute HTML Compressor Review - Why is it absolutely necessary to compress HTML files? If you haven't noticed it already, the web has been expanding for years and years. When you look at the Internet nowadays, you'll probably notice that the amount of pages in the web has multiplied substantially. The size of HTML files on the web has also skyrocketed. Images, JavaScript, XML, Java code, and a whole bunch of other files and programs are added to the web pages, which makes it bulky and unreadable. And then there's the dilemma of having too many pages, especially on major sites such as big newspaper websites, shopping sites and many others. Download Absolute HTML Compressor Absolute HTML Compressor is an application designed to effortlessly reduce the size of HTML webpages by eliminating some information, such as blank spaces, whitespace characters, and quotation marks. It contain a simple set of options that can be tackled even by inexperienced users. Hassle-free installer and user-friendly GUI Setting it up takes minimal time, since there are no unfamiliar options, prerequisite software products or third-party offers involved. When it comes to the interface, the tool opts for a small window with a neatly structured layout, where you can select either a file or a folder containing multiple HTML and HTM files that you can want to compress simultaneously, thanks to the fact that batch processing is supported. They can be filtered by format. Compress multiple HTMLs in bulk It's possible to include or exclude directories, view the name, full path, old and packed size, along with the ratio of each HTML object, merge lines, as well as remove unnecessary whitespace characters, useless quotation marks, HTML comments, tags and any meta tags you indicate. Plus, tags can be shortened, wherever this is possible. Absolute HTML Compressor also offers to create file backups, so there's no need to do this manually before launching the program. Help documentation is available. On task completion, you can inspect the difference size between the old and new files. Evaluation and conclusion
