Q: Why are post replies duplicated? Related: Duplicate post reply when mark as duplicate As you can see in the two linked answers above, the same text was copied-and-pasted for each reply, which seems to violate the point of comments in the first place: for a question, there should be only one comment, for an answer there should be one comment. Description of Related Art Electronic products are widely used in people's everyday life. With the development of technology, the electronic products can perform more tasks and provide more functions to be used. The electronic products have gone through the design of light, thin, short and small. However, most of the electronic products are designed according to the specifications of their own, and the heat generated when the electronic products are operated may cause abnormal operation or malfunction. On the other hand, if the heat generated by the electronic products is not dissipated quickly enough, the electronic products will be damaged. For solving the heat dissipation problem, a heat dissipation device is usually disposed on the electronic product for dissipating the heat generated by the electronic product. However, when the heat dissipation device is attached on the electronic product, some locations on the electronic product must be blocked, which causes the electronic product not to be designed in a light, thin, short and small manner. Therefore, it is an important subject to design a heat dissipation device having a compact structure that can still dissipate the heat of the electronic product.Report Video Issue Issue: * Broken Video Subtitle Issue Copyright Infringement Invalid Contents Submit Report Directed by: Shunji Iwai Actors: Yumiko Kobayashi, Kazue Takahashi, Makiko Hase Language: Japanese (English subs) Country: Japan Also known as: Overview: In middle school, I was an altar boy at a religious community.
