"There is a lot going on in the region. There is a lot going on," he added. "My message to the business community is that they should plan for Tongatapu. "We've got so much development and economic growth in the last 12 months - or even the last six months - that we are going to take some strength from Tongatapu. We are going to win on that strength. We are already winners and it is only a matter of time before we win again." So how is the future looking for Tongatapu? High five - to the airport then.Glamour Man: The British Actor Who Made a Nation Say 'Yes, Sir!' The Manchester Evening News tweeted this article on the service that Acting Master Alex Rumjantsev, of the Royal Central School of Speech & Drama in London, provides for actors to help them learn to be better actors. "We have a brilliant acting school in Manchester, where we teach an Acting Master module for those who want to be actors," said Rumjantsev. "You get to rehearse and perform. There are opportunities to get into the type of work we would do at Drama Centre London. There's always a crack team of people at Drama Centre when you get in. You're a hotshot actor. The best people don't go to Drama Centre. They don't get a chance." Rumjantsev said it's about being in the right place at the right

Two common types of wormholes are the Einstein-Rosen bridge and the Worm Hole. The following sections describe each. Einstein-Rosen Bridge Einstein came up with his theory in one day. On the basis of this theory, he determined that it is possible for matter or energy to travel through space at the speed of light, but he did not have time to figure out how to harness this capability. Einstein-Rosen bridge An Einstein-Rosen Bridge (ER Bridge) is a wormhole. A wormhole is basically an Einstein-Rosen Bridge that you can travel through. I guess an ER Bridge may be more accurate than a wormhole. You can cross the bridge from one side to the other, and you can see the side you enter from and the other side as you travel. The bridge appears to be a linear tunnel or a tube. In most cases, the bridge is thin enough to appear like a thin strand of material, so it can easily pass through structures like walls, roofs, floors, and ceilings. The wormhole is used as a shortcut between distant points in time and space, but when it is energized it can also serve as a type of space-time travel device. Wormholes can be open for only a small fraction of time. The traveler's experience is limited to one moment in time in one place. During the trip, the traveler starts out
